

VI SEC1000 Intelligent Addressable Fire Alarm Panel

CE CPR EN54-2 EN54-4

FEATURES

- › 120 Loop address capacity
- › Loop structure supporting class A and class B types.
- › 4.3" color LCD, 480x272 pixel display.
- › Indicator for 16 regions.
- › 1000 past event memories.
- › Independently programmable siren output.
- › Built-in power supply and battery.
- › Easy programming, testing and commissioning.
- › Easy data management with USB Flashdisk.
- › Hierarchy management with three levels of access.
- › Protection against sabotage with keyed lock.
- › Canbus for network connection (up to 20 panels)

TECHNICAL SPECIFICATIONS

Operating Voltage	220-230V/AC 50-60Hz
Operating Current	3A
Fire Relay	21-27V DC
Sounder Output.	21-27V DC
Fault Relay	24V DC @1.0A
Temperature	-5C° ~ +45C°
Humidity	≤95%
Dimensions	560x430x170mm
